## M'LAUREN OUTLINES WAREHOUSING PLANS

TELLS WHAT HE HOPES TO ACCOMPLISH

### COMPLY WITH LAW

Says That Cotton Will Have to Be Distributed From Warehouses in the Southern States.

"Later I hope to see concentration warehouses in Charleston and Columbia to handle export cotton, bringing the foreign spinner and the producer into closer touch."

"It must be apparent that in the future reserve cotton must be held in the South and distributed from there to the world."

"I intend to see that the law is complied with, especially as to grades, because I realize that, when character is established, cotton can be bought and sold by the receipt, thus saving great expense to producer and consumer by eliminating middlemen who now thrive at the expense of both."

Foregoing are sentences from a letter which the State warehouse commissioner, Jno. L. McLaurin, addressed yesterday to Theodore H. Price, editor of Commerce and Finance (weekly) of New York. The letter follows:

"I am enclosing you a copy of the warehouse act passed at the extra session of the South Carolina legislature."

"The receipt given by the State carries: 1. Absolute title to the bale or bales of cotton enumerated therein, removing the cloud resting upon the title to every bale of cotton produced under the crop mortgage system."

"2. It guarantees weights and grades, also condition of cotton."

"3. It guarantees the delivery of the identical bales named in the receipt, thus preventing substitution."

"This should make a good collateral to a farmer's note to be used for discount under section 13 of the new currency law."

"The act passed is not my original conception of a State warehouse law, but it is designed to meet the emergency thrust upon us by war. Later I hope to see concentration warehouses in Charleston and Columbia to handle export cotton, bringing the foreign spinner and the producer into closer touch. It must be apparent that in the future reserve cotton must be held in the South and distributed from there to the world. This is but a small beginning on a very large proposition, but it is a beginning."

"The farmers are holding their cotton in the firm determination not to accept less than the cost of production, which is about 10 cents per pound. The price is advancing as a result of this agitation and paradoxical as it may seem, it is going to be easier to borrow money on cotton than to sell it in large volume, because as it is held the price of that entering into consumption makes higher the borrowing basis, whereas if all cotton in the farmers' hands is forced upon the market, it would almost destroy its value and leave no borrowing basis. It is the lien merchant who is left with the bag to hold. If he can discount his note, secured by warehouse receipts, through the reserve system, credits will be unlocked and the farmer hold his cotton and maintain prices."

"Your admirable articles in Commerce and Finance are being widely read and I am bringing this matter to your attention so that those with money to lend may properly appreciate a State warehouse receipt, issued as security for loans. I call particular attention to the heavy criminal penalties for violation of the act and intend to see that the law is complied with, especially as to grades, because I realize that when character is established, cotton can be bought and sold by the receipt, thus saving great expense to producer and consumer, by eliminating middlemen who now thrive at the expense of both."

"The new machine will be one of the best additions that the fire department could have, according to members of the fire department. It would enable the department to handle many fires, with which they are now unable to cope and would save the city thousands of dollars annually. The initial cost of one of these combined fire fighting machines is between \$8,000 and \$10,000."

It is fairly certain that the councilmen will visit Spartanburg and Asheville and it is believed that they will also send the delegation on to Columbus.

## WISHED SHE COULD DIE

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I could die and be relieved of my suffering from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do any housework."

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardui, the women's tonic, and I am not bothered with pain any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardui goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who feel as if everything were wrong, and need something to quiet their nerves and strengthen the worn-out system."

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardui. It will help you. At all druggists.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Literature on your condition. Send 10c for Cardui for Women, in plain wrapper. N.C. 122

## TWO MONEY CROPS TO BE POSSIBLE SOON

IF GRAIN ELEVATOR IS BUILT HERE

### SHAPING PLANS

Opinion is That Original Plans Do Not Call for Building Sufficient to Meet Needs.

Following a conference yesterday morning between J. S. Fowler, representing the farmers and business men of Anderson county, and J. Cooper Stratton, representing the Burtell Engineering and Construction company of Chicago, it appears that Anderson county is certainly to have a grain elevator and that at a distant date. It has been decided to call a meeting of the committee appointed for this purpose and to push the proposition through at the earliest possible moment. Meantime, the detailed information as to the number of acres planted and to be planted in grain in Anderson county this year will be gotten together and the maximum number of bushels of grain to be marketed here will be estimated.

S. M. Brock, who is deeply interested in the idea and who has traveled through the West to inspect the grain elevators, is inclined to believe that the capacity of the plant proposed for Anderson county will have to be increased from 25,000 bushels to 40,000 bushels as present indications are that the crop of small grain raised in the county will be between 1,000,000 and 1,500,000 bushels in oats and other winter grains. He thinks that the elevator should also be equipped with apparatus for handling corn, for shelling and sacking about 350,000 to 500,000.

Discussing the matter further, Mr. Brock says that the new plan will furnish Anderson county with two money crops, oats and wheat. In May, when the farmers will bring in their grain, turn it over to the elevator and receive ready cash for the same and another when the corn comes in, a few weeks before the cotton crop is gathered.

A healthy interest is being manifested all over the county in the idea and that the elevator will be built here is now an assured fact.

## Macaroni

One of the big trades offered for Saturday and Monday down to 212 S. Main St., is Macaroni.

Now just what about it. 3 pounds for 25c. Me and Ma have tried it and we know there is none better. And that Rio Coffee, 7 pounds for \$1.00 is a wonder.

I tell you folks you can't afford to miss buying such good coffee so cheap.

And nowhere else can you buy 10 pound buckets of lard for 95c. Ma says her sister Jane pays \$1.25 for the same lard. But we've heard it talked round that she don't pay her grocery bill every month. Me and Ma does and we get our groceries just like handing the money down for them. You should see that window all dressed up with fresh meats. There are whole hogs, quarters of beef, all pure sausage, pork chops, hams, mutton, etc. Just inside the store is fresh fish and oysters and they are beautiful. That good old cream cheese, mince meat, raisins, pickles, nuts, etc., makes a boy's eyes dance and his mouth run water. You can do as you please "Bud," but me and Ma are going to trade with

## TEN CENTS FOR COTTON

In order to show that our sympathy for the farmers of this community is REAL—the kind that you can CASH IN—we are willing to sell the Very Best Makes of Pianos and Organs at prices as low or lower than you can get them for elsewhere; and take Middling cotton at TEN CENTS per pound in payment for same.

We BUY our pianos OUTRIGHT—paying SPOT CASH for them—and we buy them CHEAP—therefore we are in a position to SELL them CHEAPER than the other fellow, who carries them on "Consignment" or buys them "On Time."

This is simple—nothing hard to understand about this; we all know that SPOT CASH always BUYS anything CHEAPER than "ON TIME"—Hence our ability to UNDER-SELL ALL COMPETITION.

Every piano which we sell is fully GUARANTEED for TEN YEARS by the Manufacturers and by us.

We will sell YOU a Piano or Organ for Cash or Terms to Suit You.
